

Marking Services Incorporated

## MS-215 MaxTek™ Valve & Equipment Tags

Marking Services, Inc. (MSI) offers MS-215 MaxTek™ tags, the highest quality tag available for marking valves, instrumentation and equipment. MS-215 MaxTek™ valve and equipment tags provide plant personnel with necessary information regarding hazard identification, operating procedures and equipment identification.

MS-215 MaxTek™ tags offer the ultimate in outdoor durability. MS-215 MaxTek™ tags shield printed legends between two layers of high-performance, chemical resistant plastic. The sealed tag provides maximum protection against moisture, sunlight, and the effects of harsh chemicals.

- High-performance MS-215 MaxTek™ tags protect the graphics from environmental conditions
- Water resistant
- Complete printing flexibility – each unique tag can include multiple lines of text, equipment number, operation and maintenance instructions, safety precautions, or other critical asset information
- Standard background colors: Yellow, Green, Red, Blue, White, Black or Orange
- Legend Colors: Black or White
- Matte finish with beveled or parallel edges
- Tag mounting via stainless steel grommets, adhesive or a combination of both
- Custom colors available
- Custom sizes available
- Double-sided tags available
- Barcoding or QR codes available for asset management and inventory control
- Text height sized to fit tag boundary or comply with height specifications
- Photoluminescent (glow-in-the-dark) material available
- Reflective material available
- Highly visible printed legends will remain effective outdoors for years due to the UV protection inherent in the construction.

MS-215 MaxTek™ Material

Service Temperature Range	-40° F to 200° F (-40° C to 93° C)
Water Resistance	Excellent
Outdoor Durability	Minimum 5 years
UV-Resistance	Excellent
Abrasion Resistance	Excellent
<b>Chemically-resistant to strong acids and bases</b>	

MS-215 MaxTek™ tags are available in two thicknesses: MS-215 R [115 mil] for rigid requirements and MS-215 F [30 mil] flexible. For mounting on curved surfaces, we recommend MS-215 Flexible with construction adhesive for secure installation.

MSI valve and equipment tags can be customized specifically for each facility. Don't settle for restrictive tag makers that only allow for minimum information or require minimum quantities — custom MS-215 MaxTek™ tags from MSI allow for more flexibility. Whether you are looking for one tag or thousands, you'll get a competitive price with no set-up fees or added charges.

Marking Services improves and standardizes the identification of hazards and components to promote safer work environments and minimize downtime due to errors or accidents. We provide a full complement of identification products designed to fulfill identification needs in nearly any environment. Through our commitment to providing value-added services, high-quality products and on-time delivery, MSI offers you a one-stop, comprehensive source for all your identification needs.
