

Marking Services Australia Pty Ltd.

Engraved Plastic Valve and Equipment Tags

Marking Services Australia (MSA) offers engraved plastic valve and equipment tags for identifying and tagging valves, instrumentation, pumps, fans, air handling units and other equipment. Bright, durable valve and equipment identification tags from MSA are engraved on two (2-ply) layers of permanently bonded plastic.

Engraved plastic valve and equipment tags are easy to read providing excellent visibility for important operational information. Ideal for color-coding valves or instrumentation, engraved plastic valve tags feature highly visible engraved text that provides a distinct contrast between letter color and background color.

- Excellent for in-house maintenance programs; use to verify machinery numbers shown on work orders, reducing costly errors and accidental shutdowns. Engraved plastic material is also ideal for providing building graphics and door signs.
- Extremely durable engraved plastic tags are designed for indoor applications, outdoor engraved plastic material also available upon request.

Marking Services Australia Pty Ltd.

Standard valve tags are available in 1 ½"(38mm), 2"(51mm), 3"(76mm) and 4"(102mm) sizes and come in round, square or triangle shapes. Typical equipment tags sizes are shown in the chart below:

Standard equipment tag sizes – additional sizes available upon request	
¾" x 2 ½"	(19 mm x 64 mm)
1" x 2 ½"	(25 mm x 64 mm)
1" x 3"	(25 mm x 76 mm)
1 ½" x 4"	(38 mm x 102 mm)
2" x 4"	(51 mm x 102 mm)
2" x 6"	(51 mm x 152 mm)
2" x 8"	(51 mm x 203 mm)
4" x 6"	(102 mm x 152 mm)

- Text height sized to fit tag boundary or to comply with specified height
- 1/16" (1.6 mm) standard thickness, 1/8" (3.2 mm) thickness also available
- Matte finish with beveled edges
- Colors available: Black, Green, Red and Blue with White letters; Yellow, Orange and White with Black letters
- Standard mounting with a 3/16" (4.8mm) diameter holes and/or adhesive backing; alternative options for mounting available
- Service temperature range: -20° F to 175° F (-28° C to 79° C)
- Custom sizes, colors, and shapes available on request
- Standard tags engraved on two (2-ply) layers of permanently bonded plastic, 3-ply also available

Marking Services improves and standardizes the identification of hazards and components to promote safer work environments and minimize downtime due to errors or accidents. We provide a full complement of identification products designed to fulfill identification needs in nearly any environment.

Through our commitment to providing value-added services, high-quality products and on-time delivery, MSA offers you a one-stop, comprehensive source for all your identification needs.
