

Marking Services Australia Pty Ltd.

MS-900AS Self-Adhesive Conduit & Voltage Markers

FIBER OPTIC CABLE

120 VOLTS

DATA

Marking Services Australia (MSA) offers MS-900AS self-adhesive conduit and voltage markers as an economical and easy way to identify electrical services and equipment. Designed to be highly visible and durable, MS-900 conduit and voltage markers clearly communicate the presence of potential hazards and other essential information.

MS-900 self-adhesive markers are designed to identify conduit and equipment in a wide variety of environments and have an industrial grade adhesive making them easy to install.

- Designed for labeling conduit, panel boxes, circuit breakers and connections to equipment
- Black text on orange markers provides a highly visible warning of potential electrical hazards; additional colours available
- Printed on premium-quality, fade-resistant vinyl with durable, industrial grade adhesive
- Adheres well to conduit and equipment with only limited surface preparation
- Standard sizes below, additional sizes available upon request
13 mm - 64 mm*, 25 mm - 203 mm, 51 mm - 229 mm
* 13 mm - 64 mm labels are supplied ten markers per sheet
- Service temperature range: -46° C to 82° C
- Custom legends available
- Fast turnaround with off-the-shelf delivery on stock legends
- No minimum order quantity

Marking Services improves and standardizes the identification of hazards and components to promote safer work environments and minimize downtime due to errors or accidents. We provide a full complement of identification products designed to fulfill identification needs in nearly any environment.

Through our commitment to providing value-added services, high-quality products and on-time delivery, MSA offers you a one-stop, comprehensive source for all your identification needs.
