

Marking Services Australia Pty Ltd.

# MS-900AS Self-Adhesive Markers

Marking Services Australia (MSA) offers MS-900AS self-adhesive markers as an economical and easy way to mark pipes and ducts/equipment. Our self-adhesive markers are made from durable vinyl material suitable for line marking identification and system colour coding.

Why spend hours fiddling with tape and typing each system into a small label maker to print markers one at a time? MS-900AS markers comply with AS 1345-1995 standards, have an industrial grade adhesive and are easy to install. Simply clean and dry the pipe, remove the marker from the coated paper backing and place in the desired location.

← HIGH PRESSURE AIR →

- Highly visible colour-coded labels make it easy to differentiate between systems
- Printed on premium-quality, fade-resistant vinyl with durable, industrial grade adhesive
- Adheres well to pipe and insulation with only limited surface preparation
- Flow direction chevron arrows are printed on each marker
- Complies with AS 1345-1995 "Standard For Pipe, Conduit and Duct Identification" for colour field, chevron arrow design, letter text height and supplemental colour banding
- Fast turnaround with off-the-shelf delivery on stock legends
- No minimum order quantity
- Wide variety of standard colours available
- Markers can be customized to designate the specific system, service or point of origin

Marking Services Australia Pty Ltd.
