

PRE-PRINTED HEAT SHRINKABLE WIRE MARKERS

Technical Data

Description

MSA Pre-Printed, heat shrinkable wire markers are made from top quality 2:1 polyolefin, and printed with abrasion resistant text to customer needs. Applied with any standard heat gun.

Two sizes are standard, .25" (6.3 mm) and .125" (3.1 mm) pre-shrink diameter, which covers the wire sizes AWG 8 to AWG 24. Other sizes and colors are available upon request. Lengths starting at 2" (50.8 mm).

Physical and Chemical Characteristics

Material:	Polyolefin - UL Listed
Shrink Ratio:	2:1
Shrink Temperature:	212°F (100°C)
Operating Temperature:	-67°F to 275°F (-55°C to 135°C)
Standard Diameters:	.125" (3.1 mm) and .25" (6.3 mm)

Information on physical and chemical characteristics is based on tests we believe to be reliable. The values are intended only as a source of information and are given without guarantee and do not constitute a warranty. Purchasers should independently determine, prior to use, the suitability of this material for their specific application.
